The Strapex Advantage

Machine, Strap and After-Sales Service as a total package

Strapex Endsealer – the specific and proven strapping system

- Simple design, few moving parts
- Unaffected by humidity
- Fast and easy coil change
- Fewer coil changes due to larger coils resulting in less machine interruption
- Simple integration into existing conveyor systems
- Strap and banderole height individually adjustable: upper and lower strap and banderole can be adjusted individually

The right machine

Due to the flexibility of their machine construction programme, Strapex can offer tailor-made solutions for customers individual applications.

The right strap from our own manufacturing plants

A comprehensive range of plastic straps (PP and PET) each with their own characteristics to ensure that strap and equipment are always the best possible combination!

Worldwide Sales and Service

You will receive expert advice on choosing the right solution and service package together with the guaranteed availability of spare parts.

Additional products for the transport securing sector

- Hand tools for strapping
- Stand alone strapping machine
